WHAT'S NEW AT SK SPEED RACING EQUIPMENT

SLIM WIRELESS SCALE KIT

Wireless Vehicle Weighing with Proform Slim Wireless Vehicle Scale Kit provides Cross weight, Side/Side weight, and Front/Rear weight in addition to the standard weight and percentage for each wheel and total vehicle weight. Proform's Scale Kit features Powder coated die-cast aluminum pads, a wireless and backlit LCD screen, and a foam-lined, hard-shell case with heavy-duty wheels and handle for easier mobility. The lightweight, aluminum, scale pads are 15" x 15" (1 5/16" thick) with low angle, drive up edges that DO NOT REQUIRE RAMPS and have a 1,750 lb. capacity per pad, totaling 7,000 lbs. This Proform Scale Kit highlights a live stream data feed via USB cable to computer with free downloadable program for viewing, data-logging and file exporting. Ensure dialed-in performance with 1/10 of 1% of scale pad accuracy.

PROFORM'S WIRELESS SCALE KIT IN ACTION

MAX-FIRE SPARK PLUG WIRES

Max-Fire offers two levels of spark plug wires; Ultra-Spark 500 and Ultra-Spark 50. Ultra-Spark 500 is a great choice for replacing OEM wires and are value priced. They feature high quality leads that deliver 500 ohms of EMI/RFI noise suppression with low resistance. They are ideal for daily drivers and for budget builds, offering the best combination of value and performance. Ultra-Spark 50 spark plug wires are engineered for high performance engines that need all of the voltage they can get for maximum power output. They are made with wire leads that deliver a low 50 ohms of resistance per-foot for maximum EMI/RFI noise suppression. This makes them ideal for engines with aftermarket high performance upgrades that require maximum voltage.

UNIVERSAL & ENGINE SPECIFIC APPLICATIONS
STARTING AT **\$42.99**

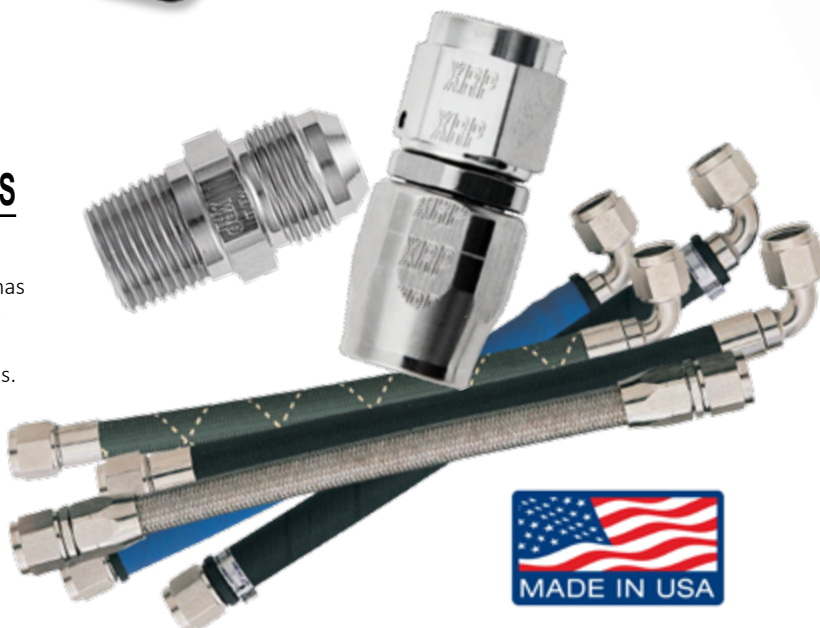

XRP SUPER NICKEL FITTINGS

XRP's dazzling Super Nickel plating finish gives an elegant modern look for racing vehicles, hot rods, street rods, and show cars. Super Nickel has the look of a stainless steel fitting with the economy and weight-saving advantages of aluminum. Adds polish to your engine compartment for many seasons. Shown below are just a few of the popular combinations. Super Nickel is available for both hose ends and adapter fittings.

1000 AIR MOVER

**900 CFM
24LBS**

Cool Race Cars & keep your cool in the shop with the 1000 Airmover by Flex-a-Lite! This must have for racers enables you to cool your car quickly between rounds. It's also helpful in the garage to quickly clear smoke or fumes, or to keep your cool as you work with a steady stream of air flow. Weighs 24lbs.

Lightweight & Compact- easy to pack and handle.

High Velocity performance- 900 CFM of focused airflow, lets you direct the air where you need it most.

Very low, 2 amp, power draw - won't over-tax trailer circuits or the generator.

Multi-position design- direct the airflow where you need it the most.

Daisy-Chain - electrical outlet in housing lets you connect multiple air movers together.

F21CFM1000 **⌄ \$219.99**

AIR OIL SEPERATORS

These Moroso Air-Oil Separator Tanks are plumbed into a vehicle's breather/PCV system to capture excess crankcase vapors and the residual oil mist from re-entering the intake track. There are versions available for factory configurations, vacuum pumps, and universal installations.

STARTING AT **⌄ \$111.99**

COMPLETE IGNITION SYSTEMS KITS

Our Complete Ready to Run Ignition EZ Kits make it easy to add MSD performance and reliability to your engine. Each Kit contains an MSD Pro Billet Distributor, MSD 8.5mm Super Conductor Wire set, MSD Performance Ignition Coil, and Coil Bracket. We've put together a complete kit to take the guess work out of choosing the right components for your performance AMC, Buick, Chevy, Ford, Mopar, Oldsmobile, and Pontiac carbureted engine.

*** These kits requires no external ignition box and is ready to run out of the box!**

STARTING AT **⌄ \$483.99**

COLDFIRE FIRE SUPPRESSING SYSTEM

Cold Fire 302 is a fire suppressing agent for Class B oil/fuel fires. Also suitable for wood and paper fires. It suppresses quickly, prevents re-flash, is safe to store, handle and use. Leaves virtually no residue and is environmentally safe. On Class B fires, the chemical encapsulates the oil and prevents burning and re-ignition. Cold Fire 302 has the advantages of foam and dry chemical without the mess. Cold Fire suppressants are UL listed and approved by many state agencies.

IQ3L STREET LOGGER DASH

The IQ3SL Street Logger Dash adds data logging to the popular IQ3S Street Display Dash. It's an ideal solution for any vehicle that needs full road instrumentation and the ability to record data, putting both into one easy to use unit. Standard data, such as speed, odometer, turn signals, high beam and parking brake indicators are displayed, along with programmable shift and warning lights. Plus, it features internal processing to read data from OBDII and most aftermarket ECU and EFI systems, making it ideal for modern cars, or vehicles with modern EFI engine swaps. In addition to data provided from OBDII, ECU or EFI (if connected), the IQ3SL records engine RPM, speed, gear, coolant and oil temp, oil pressure, and up to six additional V-Net channels.

PRK250-DS-IQ3SL **\$1399.99**

FULL GM VEHICLE SUSPENSION KITS

QA1 has expanded its offering of full-vehicle suspension kits to include **1975-1979 GM X-bodies, 1973-1977 GM A-bodies, 1970-1972 Monte Carlos & 1969-1972 Grand Prix**. For each vehicle, QA1 offers both performance handling and drag racing kit options in up to three different levels of performance.

LEVEL 1

LEVEL 2

LEVEL 3

Because each component in the kits works seamlessly with whatever OE component it attaches to, those who don't want to make the whole investment right away can build a car in stages, using the product list as a road map.

Kits Starting at \$509.99

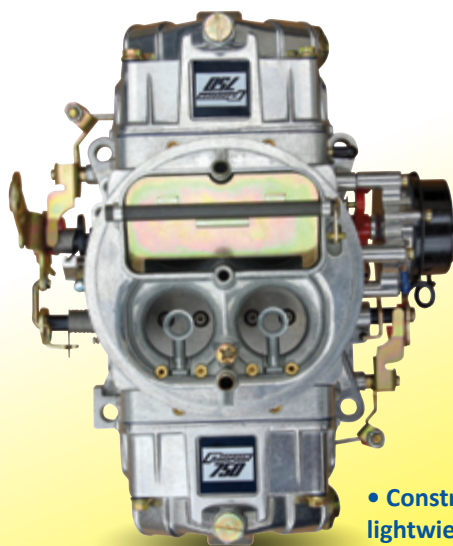

CARBURETORS

STREET SERIES

Based on the wildly successful Race Series carburetors the new Proform street carburetors are constructed of lightweight aluminum. These carbs are affordable high-performance street carbs assembled by hand in the USA.

PART#	CFM	SECONDARIES	PRICE
P7567207	650	VACUUM	\$444.99
P7567208	750	VACUUM	\$459.99
P7567212	650	MECHANICAL	\$439.99

QFT30-175 ▮ \$229.99

400 GPH HI-OUTPUT

Designed for drag race & other short duration competition. Supports from 800-2500 HP. 400 GPH Flow @ 25 PSI. #10 AN Inlet & Outlet Ports, #8 AN Bypass Port. Externally adjustable bypass to eliminate pump cavitation. Hard coat anodized billet aluminum housing. Compatible with all fuels (Gas, Alcohol, E85). Highly efficient 6-vane design. Wear resistant coating applied to all critical internal parts. Bypass valve adjustment 10-25 PSI, preset to 25 PSI.

QFT30-427 ▮ \$424.99

125 GPH ELECTRIC FUEL PUMP

Flows 125 GPH for carbureted applications. Constructed of lightweight steel & aluminum. Female 3/8" NPT inlet & outlet. 14 PSI maximum pressure. Externally accessible pressure relief valve. Includes an adjustable pressure regulator. Mounting bracket, hardware & instructions included.

QFT30-125-1R ▮ \$119.99

CANISTER STYLE FILTER

100 micron stainless steel. Compatible for us with gas, alcohol, & E85. Hard-coat anodized billet end caps & assemblies

QFT30-7007 ▮ \$104.99

LSX CARBURETOR CONVERSION

MSD LS Ignition Control Box for LS1/ LS3/ LS6 allows you to install a carburetor on your LS-based engine. Matching factory-type connectors for the coils, crank sensor, MAP sensor, & the cam sensor. Features a 2-step rev limiter, a vacuum advance curve for cruising economy, & even a step retard for nitrous use. Controller activation is programmable via the included software on a PC. Fel-Pro gaskets are included with these kits.

All EZ KITS Include:

MANIFOLD

IGNITION

GASKETS

PERFORMER RPM LSX

CARBURETOR CONVERSION KITS

The Edelbrock Performer RPM intake is a dual plane design, & makes power from 1,500 RPM to 6,500 RPM. Great for street driven vehicles.

Performer RPM LS3
EZKLS1018 **\$729.99**

Performer RPM LS1/ LS6
EZKLS1028 **\$699.99**

Victor Jr. LS1/ LS6
EZKLS1030 **\$719.99**

VICTOR JR. LSX CARB CONVERSION KITS

This single plane Edelbrock Victor Jr. intake supports up to 600 horsepower. 3,500 RPM to 7,500 RPM powerband is perfect for a stout strip machine.

Victor Jr. LS3
EZKLS1014 **\$769.99**

Super Victor LS1/ LS6
EZKLS1012 **\$959.99**

SUPER VICTOR LSX CARB

CONVERSION KITS

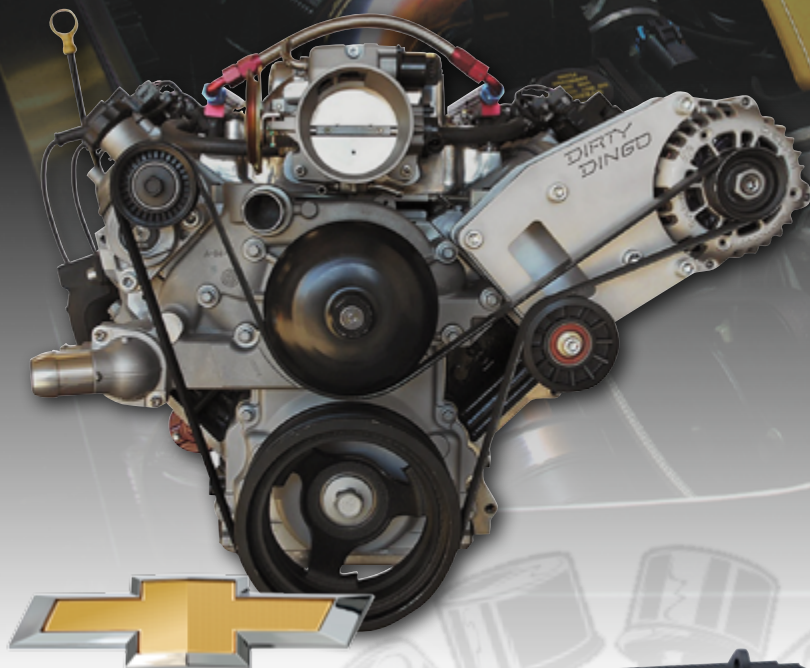

Super Victor intakes offer the greatest flow potential and power gains. Single plane design. Carb mount pad is 1.12" taller than the Victor Jr., ports have been increased to 1.08" x 2.74". 3,500 RPM to 8,000 RPM powerband. Also available for aftermarket EFI.

Super Victor Jr. LS3
EZKLS1016 **\$849.99**

[GM LS/LS1 CONVERSION SWAPS]

ENGINE MOUNTS & ACCESSORY BRACKETS

WIDE ALTERNATOR BRACKET

Billet aluminum alternator only bracket for 1997-2013 LS engines with 1998-02 Camaro-GTO accessory spacing. This bracket is designed to fit all LS alternators. Machined from 3/8 thick 6061-T6 aircraft billet aluminum. Places the alternator on the driver's side 1 1/2 inches below the top of an LS1 intake manifold. The wide design will fit with ample room for running tall cast or sheet metal fabricated valve covers. This bracket is for only the alternator, non-power steering applications.

Designed to fit all LS alternators- 1998-2002 Camaro and 2000-2013 Truck LS Vortec Truck, Early Non Supercharged CTSV, or 2010 up Camaro Alternators.

DDMDD-LS-ALT-W-CM

\$149.99

GM LS/LS1 CONVERSION ENGINE MOUNTS

Starting at \$59.99

Machined from 6061-T6 billet aluminum. Designed as a true "bolt in" adapter plate for installing the 1997-2013 Gen III/IV LS series engine into 1958-72 GM cars & 2WD GM Trucks, & up to '82 Corvettes. Gives up to 2-1/2" of adjustment, & positions the LS engine 1/4" higher than other adapter plates.

DIRTY DINGO GM LS ACCESSORY BRACKETS

Ranging From \$49.99 - \$249.99

Machined from 3/8 thick 6061-T6 aircraft billet aluminum. No need to buy a different style power steering pump, reservoir, pulley, & idler pulley. Alternator & power steering brackets available.

[CUSTOM HARDLINE]

WET NITROUS SYSTEMS

Custom fabricated hard lines & solenoid brackets are engine specific & make installation quick & easy! CNC billet spray plates with engraved logo, jetting from 50HP to 200HP, fuel & nitrous solenoids, brackets, activation switch & wiring is included along with an empty 10lb. bottle.

*Intake Manifold not included.

Applications Available

DIRECT FIT SWITCH PANELS

BILLET HEATED BOTTLE BRACKET KIT

UNIVERSAL DEDICATED NITROUS FUEL SYSTEM

Starting at **\$75.99**

NOL00-32014 **\$400.99**

NOL00-12051 **\$700.99**

[CARBURETED & EFI] NITROUS SYSTEMS

MAINLINE UNIVERSAL EFI WET SYSTEM

For the serious nitrous junkie on a tight budget. Just the basics, no frills, just rock solid performance at a rock bottom price. Includes all necessary components incl. empty 10 lb. nitrous bottle, jetting from 50-150HP, & a single Shark EFI nozzle.

N28ML2000 **\$419.99**

MAINLINE 4150 WET SYSTEM

For the serious nitrous junkie on a tight budget. Just the basics, no frills, just rock solid performance at a rock bottom price. Jetting for 100, 150, 200 & 250HP. Includes all necessary components incl. empty 10 lb. nitrous bottle.

N28ML1000 **\$419.99**

PROPOWER SYSTEM - 4150 WET SYSTEM

The most advanced technology using the conventional spraybarless design. Phase 3 series plates are the Next Generation in nitrous performance & reliability. Provides superior distribution & outstanding atomization. Systems come complete with Lightning solenoids, heavy duty 40 amp relay, 10lb bottle, stainless bottle brackets, extra long supply line & jetting from 100HP to 500HP.

N285004010 **\$729.99**

SAFE NITROUS FUEL SYSTEM

SAFE (Stand Alone Fuel Enrichment) system improves the performance of any nitrous system. Includes a one gallon, high strength, composite fuel cell that can be mounted in most factory battery trays. Available with just the fuel cell (N2815083), w/ regulator & an external fuel pump (N2815003), or a regulator w/an internal fuel pump (N2815004). Tank dimensions are 9"L x 6"W x 8"H.

N2815004 **\$798.99**

CHEATER NITROUS SYSTEM

N2302001 **\$654.99**

The NOS Cheater system is designed for use on 350 CID or larger carbureted engines. It uses large Nitrous and fuel solenoids and can be adjusted to any desired power level from 150 to 250 horsepower. Cheater systems are easy to install and utilize a 1/2" thick injector plate which fits between the carburetor and intake offering ample hood clearance! Cheater systems include a 10 lb. nitrous bottle, four (4) stages of jets, aircraft-quality steel braided line and all other necessary electrical and mounting hardware for a complete installation.

LEAF SPRING TRACTION BARS

The most innovative traction bars available! Often imitated, but never duplicated. Completely bolt-on, no cutting or welding modifications necessary. Keeps the rear axle from rotating, helping maintain pinion angles. Dramatically improves 60ft. times on the track, & launches on the street. Full pre-load adjustability. Eliminates spring wrap-up. Powder coated in a gloss black finish. PSCA, NMCA & NHRA approved.

Starting at \$349.99

CF SERIES 90/10 FRONT SHOCKS

Specifically designed for maximum weight transfer. Dual stage valving on compression allows the car to settle on the top end. Light weight design.

\$129.99/PAIR

CR SERIES 9-WAY ADJUSTABLE REAR SHOCKS

9-Way adjustable with an external dial for easy adjustability.

Dial primarily adjusts rebound, enabling driver to control excessive rear body separation. *Staggered Shocks

**Different Lower Mount Required

\$239.99/PAIR

SPLIT-MONO LEAF SPRINGS

Complete with aluminum bushings in front eyes & urethane bushings in rear eyes. Split Mono-Leafs made to work in conjunction with CalTracs. Substantially lighter than multileaf springs for unsprung weight savings. Heavy duty alignment spring clamps. Many applications are available!

Starting at \$449.99/PAIR

DIGITAL-6 PLUS IGNITION CONTROLLER

The MSD Digital-6 Plus Ignition
Control combines terrific power,
digital accuracy and great
accessories making it ideal
for street/strip applications.
Every spark of the Digital-6
Plus Ignition is packed with 135
millijoules of spark energy and
535 primary volts.

M466520 **\$379.99**

PROGRAMMABLE DIGITAL 7-PLUS IGNITION BOX

Map a complete timing curve
for every gear. Stage retards can
be set to ramp the timing. Data
log with the supplied Pro-Data+
software. Output to activate
a device through rpm, time or
pressure inputs.

M467531 **\$889.99**

DISTRIBUTORS, COILS, SPARK PLUGS

PRO-BILLET DISTRIBUTORS

Most are designed for use with MSD ignition control boxes. CNC 6061-T6 billet aluminum housings for stability & weight savings. Polished shafts feature upper-sealed ball bearings & improved oiling. Thick Rynite distributor caps & brass terminals.

GM, Ford & Dodge Applications
Starting at \$244.99

DIRECT REPLACEMENT COILS

35,000V to 48,000V outputs with increased windings for maximum outputs. Each coil has a unique turns ratio, plus there is lower primary resistance than the stock coil(s). This all amounts to a bolt-in replacement coil that produces more output voltage. The coils will work with stock ignition systems as well as MSD equipped cars & trucks.

GM, Ford & Dodge Applications
Starting at \$49.99

UNIVERSAL CANISTER COILS

Note: The ballast resistor is not necessary if an MSD 6 or 7 series ignition control is being used with a points distributor.

Available in Black, Chrome or Red
Starting at \$49.99

IRIDIUM SPARK PLUGS

Boxed sets
Starting at \$29.99

QUALITY COMPONENTS
LOW PRICE!

CDI IGNITION CONTROL BOX

Capacitive discharge technology. Adjustable rev limiter for overrev protection. Multiple sparks improve starting & idle. Easily connects to points & magnetic distributors. Full power output at high rpm.

M465520 **\$159.99**

PERFORMANCE DISTRIBUTORS

All new precision components are used. HEI distributor includes performance coil, module & vacuum advance. Heavy duty MSD gears are used. Cast housings feature long sintered bushings that add stability & timing accuracy.

GM, Ford & Dodge Applications
Starting at \$156.99

PERFORMANCE IGNITION COILS

Performance output is improved thanks to a careful selection of better materials & efficient winding ratios. Direct replacements that use OEM connections. Canister coil features a socket type terminal for use with a variety of applications.

GM, Ford & Dodge Applications
Starting at \$44.99

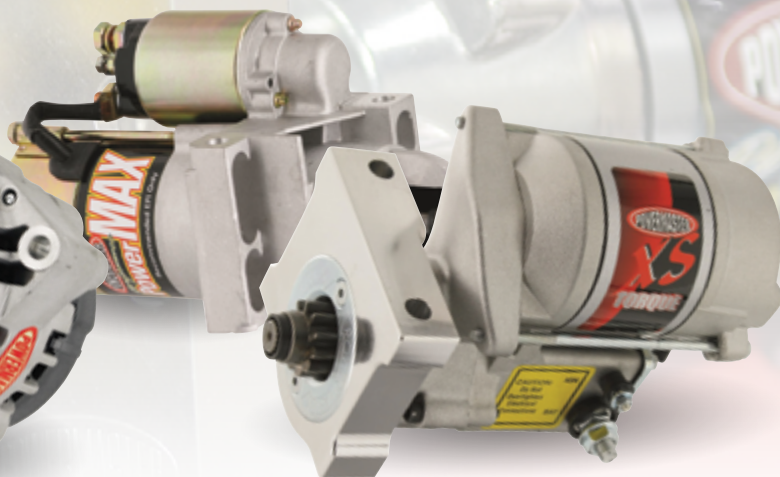

PERFORMANCE 8MM IGNITION WIRE SETS

Helically wound conductor suppresses electro radio noises. 8mm silicone & synthetic jacket resists heat & abrasion. Black wire with grey ends. Heavy duty terminals for secure connections. Kevlar core combination for great strength & durability. Only 500 ohms resistance per foot for improved spark delivery & power.

Made in the USA.

GM, Ford & Dodge Applications
Starting at \$39.99

HIGH TORQUE MINI STARTERS

PowerMAX: 160 ft. lbs. of torque will crank engines up to 10.5:1 compression. With adjustable mounting blocks, these starters work with oversize kicked-out oil pans, & features 3.7:1 gear reduction. Mounting bolts & dyno test sheet are included. 11 lbs.

MasterTorque: 180 ft. lbs. of torque will crank engines up to 12:1 compression. Features five-position indexing billet aluminum mounting blocks, these starters work with oversize kicked-out oil pans, & utilizes 4.4:1 gear reduction. Mounting bolts & dyno test sheet are included. 10.5 lbs.

XS Torque: 200 ft. lbs. of torque will crank engines up to 18:1 compression. Features billet aluminum mounting blocks, these starters work with all oil pans & headers, & utilizes 4.4:1 gear reduction. Mounting bolts & dyno test sheet are included. 8 lbs.

UltraTorque: 250 ft. lbs. of torque for the ultimate in cranking power. Features billet aluminum mounting blocks, these are the first ever total performance oriented starters from Powermaster. Mounting bolts & dyno test sheet are included.

PERFORMANCE ALTERNATORS

Combine great looks & outstanding reliable performance. All new components are used as well as heavy duty diodes & oversized bearings. One wire installation (on most models) cleans up the wiring under the hood & updates the electrical system.

Starting at \$189.99

Starting at \$134.99

PERFORMANCE GM

ALTERNATORS

These Proform alternators have durable chrome plating or natural finishes and come completely assembled, ready to bolt on. Proform parts are selectively tested with acid spray machines to verify corrosion resistance, and with de-plating equipment to measure plating thickness.

MINI 1-WIRE RACING ALTERNATORS

These small but powerful alternators are perfect for the racer looking for something reliable, and the cruiser looking for something small that looks good.

50 amp rating; included V-belt pulley; weighs only 6lbs!

21 CIRCUIT PRO STREET CHASSIS HARNESS W/ SWITCH PANEL

Includes everything you need, bulletproof OEM style fuse block, pre-terminated wiring to fuse block, color coded preprinted wiring, comprehensive instructions & Tech support. Guaranteed for life!

P4250003 **\$794.99**

6-SWITCH LIGHTED NON-FUSED ROCKER SWITCH PANEL

Heavy-duty / light-weight panels. Vibration resistant terminals, mounts in dash & includes lighted color coded rocker switches. All circuits are individually fused & comes with 18ft of wire.

P4250406 **\$247.99**

START BUTTON/IGNITION/5 ACC DASH MOUNT

This QuickCar Ignition Control Panel comes with one starter button, one ignition switch, along with five accessory switches. Panel does not include any switch indicator lights. Panel measures 7" wide by 2" inches high. Sold as one complete panel.

QUI50165 **\$79.99**

LS1 MAIN HARNESS FOR EFI/DOMINATOR EFI SYSTEMS

H19558102 **\$389.99**

ROLL CAGE MOUNT FUSED SWITCH PANEL

Cage-mount switch panel includes five on/off switches with starter button, steel bracket to be welded to roll cage. Panel is NOT assembled & will need to be wired.

M2874135 **\$121.99**

DRAG RACE FUSED STARTER SWITCH W/ 5 TOGGLE

Drag Race Switch Panel, 4" x 7.75", Includes: Starter button, five on/off switches. Note: This switch panel is NOT pre wired or assembled.

M2874131 **\$99.99**

AMS-1000 BOOST CONTROLLER

No limit on boost pressure.. The AMS-1000 will control as much as your setup can produce! Wide range of MAP sensors supported. Launch, shift, scramble, & reduce inputs can be configured for +12V or Ground activation. Integrated data-logger w/ graph view, compact billet aluminum enclosure. Includes control unit, 60psi sensor w/ lead, harness, & control solenoids.

AMS1000 **\$999.99**

NMS-1000 NITROUS CONTROLLER

Fully programmable nitrous & fuel curves. Analog input from wideband O2 sensor for logging & safety shut-off if too lean. Analog input for use with aftermarket ignitions. Billet aluminum enclosure, Ground activation.

NMS1000 **\$859.99**

WIDEBAND UEGO AIR/FUEL RATIO GAUGE

A must if you want to maximize your engine's power & safety. Digital center readout with green LEDs at the outer perimeter for easy acquisition. Interchangeable black & white faceplates included for customizing gauge appearance.

A1Y304110 **\$204.99**

DIGITAL OIL PRESSURE GAUGE

Unsurpassed accuracy & speed. Plug & Play harness & sensor included. 0-5V analog output included for use with data loggers. Interchangeable black/silver bezels & black/white faceplates. Auto-dimming gauge face & read out lighting. 24 green LED outer display lights. Three digit readout in center.

0-100 + 0-150 PSI **\$204.99**

2 1/16" DIGITAL BOOST CONTROLLER GAUGE

- High/Low Boost Modes
- Boost By RPM/Boost By Gear
- One Touch Gear Capture
- Peak Recall
- Configurable Warnings w/ Overboost Protection

SPORT COMP, ULTRA LITE, + PHANTOM FACE STYLES **\$499.99**

DIGITAL WIDEBAND/BOOST FAILSAFE GAUGE

Accurately tune AFR, while protecting your engine by activating a user-defined failsafe strategy if it runs lean.

Features an internal boost sensor, an internal data logger & a full color LED display. Intuitive software lets you fine tune parameters. Changeable faceplates let you run a black or white face as well as other bezel configurations. Includes Bosch wideband O2 sensor.

A1Y304900 **\$324.99**

DIGITAL FLUID TEMP GAUGES

Accurately reads 1000-3000 F. Includes interchangeable faceplates in black & white for oil, water & trans temp. Includes a 0-5v analog output for use with data loggers. Digital center readout with green LEDs at the outer perimeter for easy acquisition.

A1Y304402 **\$179.99**

TRU-BOOST CONTROLLER GAUGE

Includes an on-board 29PSI pressure sensor. Built-in overboost protection. Scramble boost setting & a low-side output for a warning light. Two user selectable boost settings with peak boost memory. Interchangeable black & white bezel, black & silver pin guide & black & white faceplate. No external interface required.

A1Y304350 **\$319.99**

DIGITAL 2 1/16" INTERCEPTOR OBD-II SCAN GAUGE

Capable of displaying over 100 parameters, two at a time at an adjustable rate of up to 20x per second. Available in a variety of display colors. Custom faces are also available!

SINGLE GAUGE **\$249.99**

DUAL GAUGE **\$399.99**

AIRDRIVE WIFI OBD-II CONTROL MODULE

Auto Meter's AirDrive WiFi OBD-II Control Module is a state of the art module that provides a plug and play solution that wirelessly transmits data through a secure WiFi network from your vehicle to Auto Meter AirDrive gauges. The AirDrive system is capable of broadcasting two additional analog sensor inputs to deliver information not found on your vehicle's data bus. Quick and easy installation is as simple as plugging the control module into the vehicle's OBDII port, mounting and powering gauges, and connecting to the mobile app, eliminating any fear of voiding factory warranties on your new vehicle. Program configurable colors, warning points and peak recall functions through AutoMeter's free AirDrive smartphone app, taking plug and play performance to the next level.

A489110 **\$210⁹⁹**

- Works with most 1996 and newer OBD-II vehicles.
- WiFi connectivity to smart phone or tablet devices thru AirDrive app.
- Two additional sensor inputs for expanded parameters.
- Uses vehicles OEM sensors.
- Micro USB port for PC update.
- For use with AutoMeter's AirDrive Gauges.

HIGH PERFORMANCE ELECTRIC FANS

12" - 16" DIAMETERS
Starting at \$59.99

These reversible fans help prevent overheating in stop-and-go traffic. Increases gas mileage, improves engine performance & frees the water pump pulley for more RPM. Installs in minutes with simple hand tools, & are reversible (mounts in front or back of radiator). Ultra thin design to fit cramped locations. Reinforced glass filled poly propylene blade & plastic housing for minimized weight. Can be used for primary or auxiliary use. Nylon tie mounting kit included.

RACE PRO 3-ROW ALUMINUM RADIATORS

These reversible fans help prevent overheating in stop-and-go traffic. Increases gas mileage, improves engine performance & frees the water pump pulley for more RPM. Installs in minutes with simple hand tools, & are reversible (mounts in front or back of radiator). Ultra thin design to fit cramped locations. Reinforced glass filled poly propylene blade & plastic housing for minimized weight. Can be used for primary or auxiliary use. Nylon tie mounting kit included. Universal - Welding required for in/ out & brackets.

HEAVY DUTY ELECTRIC FANS

6.5" - 16" DIAMETERS

Starting at \$84.99

These heavy duty electric fans are perfect for your heavy duty cooling needs! Features glass-filled nylon plastics with the highest temperature & impact resistance materials used in the market. All motors are fully sealed, which make them dust & waterproof. Choose the perfect size for your application. Wiring relays & thermostats are not included.

PERFORMANCE ELECTRIC FANS

7" - 16" DIAMETERS
Starting at \$49.99

S-blade design moves air more efficiently. Reversible blades make this fan suitable for puller & pusher applications. Nylon tie mounting kit included.

ALL ALUMINUM

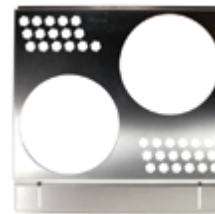

DIRECT FIT

RADIATORS

Maximum cooling to specific applications of popular street machines & trucks. Fully welded aluminum radiators supply 75% more cooling capacity but are lighter than their OEM counterparts.

Many Applications Available Starting at \$249.99

ALUMINUM HURRICANE FAN SHROUDS

Channel incoming air through the electric fans into your radiator effectively with these Northern Aluminum fan shrouds. Available for single & dual electric fan setups.

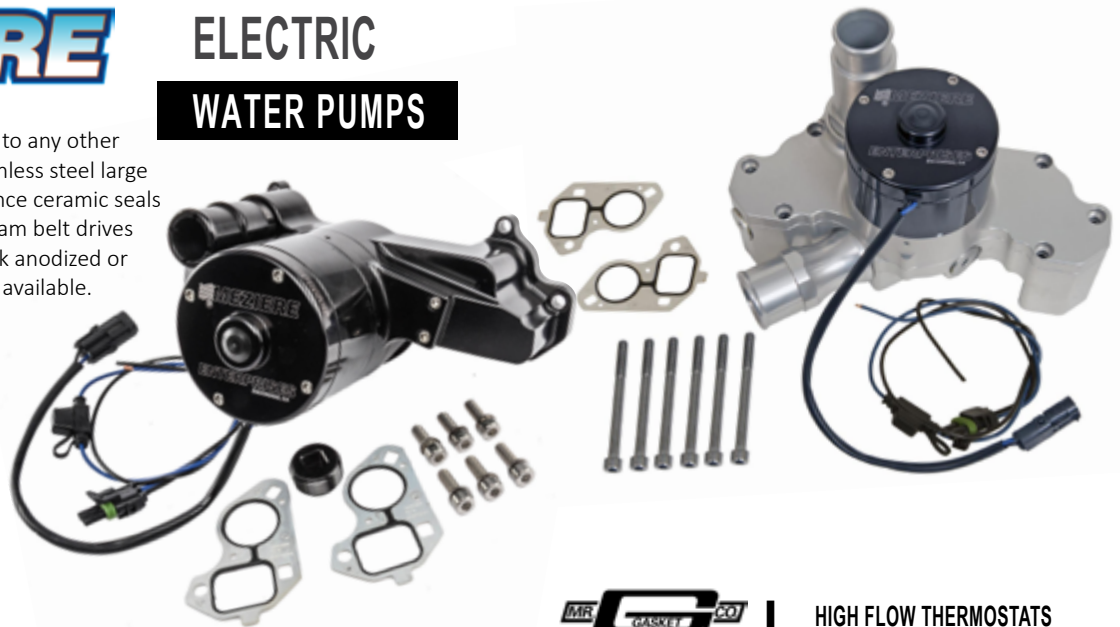

Single & Dual Fan Applications Available
Starting at \$109.99

ELECTRIC WATER PUMPS

American made with quality far superior to any other performance aftermarket company. Stainless steel large diameter main shaft with high performance ceramic seals for extreme duty use. Pumps will clear cam belt drives & most blower drives. Show quality black anodized or polished finish. Blue & red anodized also available.

**GM, FORD, & MOPAR
APPLICATIONS AVAILABLE
Starting at \$279.99**

ALUMINUM HIGH VOLUME WATER PUMPS

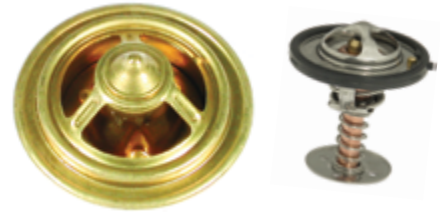

Close tolerance impellers that increase coolant flow up to 30%. Balanced distribution to each side of the block resulting in improved efficiency. Uses new, high quality aluminum castings that use large diameter shafts & heavy duty bearings.

**GM, FORD, & MOPAR
APPLICATIONS AVAILABLE
Starting at \$79.99**

HIGH FLOW THERMOSTATS

Don't restrict your high flow cooling system with a stock thermostat! These high performance thermostats are designed to resist large variations in coolant pressure that occur at high rpm's where coolant temperature & coolant pressure fight for control of the thermostat, keeping it from opening at its designated temperature. The balanced HP thermostat features all brass & copper construction, & open at the right temperature regardless of engine RPM.

Starting at \$19.99

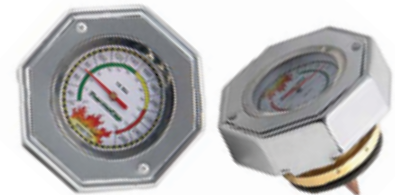

WATERLESS ENGINE COOLANT

Eliminates Overheating; has a boiling point above 375°F & will not vaporize, thus eliminating overheating, boil-over & after-boil. Reduces Pressure; generates very low vapor pressures reducing stress on engine cooling system components. Prevents Corrosion; contains no water effectively eliminating corrosion & pump cavitation. Increases Horsepower; eliminates pre-ignition & detonation caused by overheating- thus improving combustion efficiency & delivering more power. Protects below -40°F.

E67EC53001 - \$44.99

THERMOCAPS

Knowing your coolant temperature can help to prevent burn injuries. Thermo Cap, with its built-in calibrated thermometer, indicates the coolant temperature instantly! Gone are the days of slowly opening your radiator cap covered with a rag so you don't burn yourself, because you aren't sure exactly how hot the coolant is. These are 16 lb. caps for Domestic applications. Available in silver, red and blue.

Starting at \$34.99

HEATER BOX DELETE PANELS

Designed to eliminate both the heater box & blower unit from the engine bay of your vehicle. Removal of the heater box instantly removes 17 pounds from the front of your vehicle while cleaning up unwanted engine bay clutter. CNC machined from 0.125" Aluminum plate & is supplied bare aluminum with a sanded finish. No drilling is required, & they include the necessary hardware. Not for vehicles with factory air conditioning.

GM Applications Starting at \$97.99

15 ROW ATOMIC COOL PLATE & FIN

REMOTE TRANSMISSION COOLER

Mounts anywhere space permits, Electric fan supplies optimum airflow Dramatically extends engine and transmission life High efficiency OEM style Plate & Fin cooler, Clear anodized aluminum shroud. Transmission cooler kit includes fan mounted cooler, two-6AN fittings and four-6AN x 3/8" hose barb fittings, 180°F In-line thermostat, 10 ft. of OEM spec hose, 5/16" Insta-dapt radiator fitting, 5/16" and 3/8" compression fittings, and hardware- Cooler style: Plate & Fin, Inlet size: 5/8"-18 o-ring female x-6AN male- Width: 12-3/4", Height: 9-3/8", Depth: 4-5/16", Inlet dim: 8-9/16" - Mounting: 11-5/8" x 4", Hose size: 3/8", Hose length: 10' - Fan size: 8", CFM: 500, Amp draw: 4.8

DER13950 **\$164.99**

16 PASS ELECTRA-COOL REMOTE COOLER

Cooler style: 16 pass Tube & Fin, Inlet size:-6AN, Width: 15-3/4", Height: 11-1/2", Depth: 5", Inlet dim: 8-3/4", Mounting: 14-3/4" x 5-1/4" Fan size: 10", CFM: 650, Amp draw: 5.3 Cooler fluid capacity: 19.6 oz, Barb size: 3/8", Airflow: Puller (reversible)

DER13700 **\$149.99**

INSTA-MOUNT NYLON COOLER/ELECTRIC FAN MOUNTING KIT

These sturdy nylon electric fan and transmission cooler installation kits include 4 plastic rods, 4 clips, and 4 foam mounting pads to provide a solid trouble-free and installation-friendly method of securing an electric fan, transmission or engine oil cooler to any vehicle.

DER13001 **\$4.99**

SUPER COOLER & HI-TEK TRANSMISSION/OIL COOLERS

B&M SuperCoolers are 100% aluminum construction & use stamped plates sandwiched together to create one of the most efficient oil cooling devices available. Includes a unique bypass feature allowing a controlled amount of ATF to bypass the stacked plate core when the fluid is cold. This is beneficial in cold climate areas to guard against lube system failure. Controlled by viscosity, fluid is returned directly to the lube circuit through bypass openings in the stacked plate core. As the temperature increases, more ATF is directed through the core. Hi-Tek coolers are set apart with the addition of a 7" or 9-1/2" electric fan. They also include a thermal switch to activate the fan when the fluid temperature reaches 1750 F. Perfect for extreme racing conditions.

UNIVERSAL OVERFLOW TANKS

Fabricated of aluminum for strength with integral mounting brackets & a clear coolant level check. Versatile tank can be used for different applications depending how it is plumbed. With straight barbed fitting, bottom bung, 1/4" NPT w/ petcock, 1/4" NPT plug & 1/4" NPT 900 fitting.

M2863769 **\$129.99**

Lightweight Plastic design holds full quart capacity. Can be used in many forms of competition: NHRA & IHRA accepted. Vented tank includes hose fitting & drain cock. Dimensions: 10-1/2" high (overall), 3" tank diameter. Mounting brackets are sold separately.

M2863657 **\$35.99**

Pressurized fluid is captured in the expansion tank and will drain back into the transmission as the transmission cools. Excess fluid may also be drained between rounds, by using the ball valve. A mounting bracket is included.

M2841220 **\$97.99**

ONE STOP SHOP - CUSTOM SETUP FABRICATION NEEDS

1 HEADER/CAT-BACK EXHAUST SYSTEMS

1 HEADER/CAT-BACK EXHAUST SYSTEMS

Fully mandrel bent 16-gauge aluminized steel tubing. American Thunder features a very powerful aggressive tone, Force-II is a 3-chamber muffler design, which still provides a powerful tone, but not as aggressive as the American Thunder series. Some systems include polished stainless steel tips. All hangers are in the OEM locations for a direct, easy fit. Includes all necessary hardware & clamps for a complete installation.

STARTING AT 1 **\$410.99**

1 SCAVENGER SERIES HEADERS

Manufactured from 409S stainless steel & ceramic coated for maximum durability. Ball & socket collector flange for a gasket-free leak-proof seal. Dyno tested performance. Designed for an easy fit, these headers include gaskets & necessary hardware. 3/8" thick laser cut flanges.

STARTING AT 1 **\$449.99**

1 PERFORMANCE MUFFLERS

100% stainless steel & lap-joint welded for solid construction & rugged reliability even in the most extreme conditions. Free-flowing, straight-through perforated stainless steel core, stainless mesh wrap & acoustical fiber fill to deliver that smooth, deep tone. Vehicle specific systems are also available!

CATALYTIC CONVERTERS

Ribbed body that minimizes expansion & distortion when the converter heats up. A monolithic honeycomb catalyst; the ceramic is designed for maximum flow & surface area. The coating method is strictly controlled to maintain exact specifications. Stainless steel construction for years of trouble & rust-free service. Beautiful mirror finish. High flow design increases horsepower & torque while simultaneously decreasing unwanted back pressure.

Starting at **\$109.99**

VIOLATOR MUFFLERS

The Violator's aggressive sound is the result of a unique internal louvered tube with mini sound deflector chambers utilizing Pypes Slingshot technology. This configuration also dramatically reduces unwanted internal cabin resonance too! PYPES Violator Mufflers are made from 409 stainless steel to ensure longevity.

Starting at \$74.99

STAINLESS STEEL EXHAUST SYSTEMS

Fabricated using the highest quality materials, 16GA, mandrel-bent, stainless steel pipe ensures maximum exhaust gas flow, which can significantly boost horsepower. Designed to deliver enhanced performance, provide extra punch in the passing lane & improve gas mileage. X-Change feature allows use of direct bolt-in electric exhaust cutouts off of the X-Pipe. Systems do not include mufflers so you can custom tailor your system for your specific street or race application. **Starting at \$299.99**

STAINLESS STEEL PERFORMANCE MUFFLERS

Full stainless steel construction, & seam welded for years of high flow performance. Provides a deep, powerful aggressive growl that wakes up the exhaust tone of virtually any engine, 4cyl, 6cyl, 8cyl, 10cyl & even 12cyl! Reversible, straight through flow design provides extreme flow & minimal back pressure.

EXHAUST GASKETS

1/8" thickness allows them to crush 50% & fill gaps up to 1/16". Hi-Temp design is good up to a scorching 3,000 F. Seals warped flanges where other gaskets can't. No re-torquing necessary. Made from 100% flexible graphite. Remflex exhaust gaskets rebound 30%, creating an optimum seal. Available for a variety of applications; OEM & race flange headers. Header collector & turbo flange gaskets also available. **Starting at \$27.99**

ELECTRIC EXHAUST CUTOUTS

Go from stealth quiet to wide open power at the flick of a switch! Run it fully open, closed or anywhere in between. Available wireless remote kits work from 100 feet away. CNC 6061 aircraft aluminum bodies. Full metal motor cover/ powder coated satin finish. Stainless steel butterfly plates & shafts. 6061 aircraft aluminum motor plates. High torque DC gear driven motor. Gears are made from high temp steel for long life. 2 position momentary toggle switch. Weather proof wiring harnesses. Weather tight connectors for superior sealing.

MAD DOG MD-104 BLOW OFF VALVE

The MD-104 was developed with the Promod racer in mind. The MD-104 is 104mm's the aluminum mounting flange is radius cut to fit 4" diameter tubing. Built right here in the USA with only the highest quality material and craftsmanship.

RPSMD-104 **\$599.99**

TURBO SHIELD BLANKETS

Provides the ultimate means of reducing turbo lag while serving as a superior heat barrier. Made from pulverized volcanic rock then strained into a fiber material. Withstand direct heat up to 1800°F & 2500°F radiant heat.

Hi-temp rated silica insulation padding under the tight outer layer for extra added protection against extreme turbo-generated heat.

Starting at \$179.99

BOOST CONTROLLERS

DUAL STAGE BOOST CONTROLLER

Fast boost response with two adjustable boost levels. Toggle between high & low boost on the fly. Exclusive Gate feature which minimizes wastegate creep & can improve turbo response by up to 800 rpm earlier in the rev range. High-grade brass & billet aluminum. Detent adjustment system allows for accurate & simple tuning of boost pressure.

TBSTS01051002 **\$219.99**

IN-CABIN MANUAL BOOST CONTROLLER

Control the boost from the driver's seat. Detent System makes adjusting a breeze. Gated System brings boost on faster.

TBSTS01061002 **\$149.99**

BOOST-TEE MANUAL BOOST CONTROLLER

Set it & forget it. Boost is adjustable with an accurate detent system. Easy to install & adjust.

TBSTS01011002 **\$89.99**

ET DRAG SLICK & ET STREET TIRES

ET DRAG BIAS PLY SLICK TIRES

A Proven Drag Strip Winner
 Real world research and development give M/T® slicks the edge over competitive brands. Engineered for maximum traction and consistent ET's with superior construction and compounding for nearly every drag race application. **Sizes range 26.5" - 29.5"; widths up to 10.5" for 15" wheels. Starting at \$199.99 Each**

ET STREET S/S TIRES

A street tire that can be driven on the track, the ET Street S/S from Mickey Thompson is a high performance street to strip tire with radial construction, R2 compound and more; 15- to 20-inch fitments. **Sizes range 255/60R15 - 335/25R20 Starting at \$204.99 Each**

WELD
 RACING

FORGED RACING WHEELS

SPORT FORGED SERIES

Sport Forged Wheels have long offered the best strength to weight ratio and lowest rotational moment of inertia of any mid priced hot rod forged wheels for maximum performance. The three styles are recognized everywhere because of their dominance on the race track and their street credibility.

Prostar - one of the longest produced five-star style drag racing wheel, the two-piece cold forged and welded construction allows the wheel to be lightweight but hold up to the rigors of daily drivers. **Starting at \$209.99 Each**

Draglite - timeless look that has no shortage of style. It is a two-piece wheel that uses a revolutionary cold-forged rims and welded construction for a lighter and stronger wheel. **Starting at \$209.99 Each**

MOROSO

HEAVY DUTY RIM SCREWS

Manufactured from rugged Grade 8 steel to withstand the extreme loading placed on today's racing tires. Self-tapping screws feature a built-in washer face for maximum holding strength. 1/4" dia. x 3/4" long. Pack of 35. Use with a 3/8" socket.

M2890100 **\$74.99**

wilwood
 DISC BRAKES

D52 DUAL PISTON ALUMINUM FRONT BRAKE CALIPERS

A direct bolt-on performance 2-piston replacement for the factory original single calipers on many 1968-96 GM Passenger Vehicles & Trucks. Forged billet aluminum bodies, stainless steel pistons, & competition style high-temperature seals. Available in a powder coated black or red finish with the Wilwood logo. **Starting at \$169.99 Each**

ALUMINUM TANDEM MASTER CYLINDERS

Fully machined from a High-pressure die casting of a premium alloy, offers a total piston stroke of 1.10" & a 2:1 volume ratio between the primary & secondary chambers. **Starting at \$209.99**

VALVE SPRING COMPRESSOR

Stud mount design fits 3/8" & 7/16" rocker studs. Removes valve spring from an assembled engine for checking or replacing quickly & easily. Press down to compress coil spring, then remove valve keepers. Release slowly.

P7566784 **\$54.99**

MANUAL PISTON RING FILERS

Enables the user to file piston rings quickly and accurately. Position the piston ring firmly against the dowel pins, crank the handle to turn the abrasive wheel. Using a feeler gauge, file the piston ring to meet the manufacturer's specification.

P7566785 **\$52.99**

ELECTRIC PISTON RING FILER

Accurately set end gap with Proform's powerful electric ring filing tool. Powered by a 12 volt, rechargeable battery. Comes with two (2) 120-grit grinding wheels & battery recharger. Portable or can be bench mounted.

P7566765 **\$254.99**

MAGNETIC DECK BRIDGE

Will fit over any cylinder bore up to 4.500". Designed to check piston-to-deck clearance, as well as piston position at top dead center. Strong magnet holds it firmly in place.

P7566797 **\$38.99**

HARMONIC BALANCER INSTALLER/ PULLER

Fits all Ford, GM, & Chrysler engines that use 3/4 x 16 shaft; also includes 7/16 x 20, 5/8 x 18, 1/2 x 20 adapters. This heavy-duty professional tool, equipped with roller thrust bearings, can also be used as a universal puller! May also be used for steering wheel & pulley installation & removal.

P7566514 **\$74.99**

UNIVERSAL CAM DEGREE WHEEL

Contains all the tools needed to degree cams in the most popular engines. Features deluxe components including 9" degree wheel, dial indicator, dial indicator mount, 2 valve check springs, clamp kit, 14mm top dead center locator, wire degree wheel pointer, detailed instructions, & a durable foam padded carrying case. For use with heads on engine.

P7566787 **\$99.99**

DUAL GAUGE LEAKDOWN TESTER

This dual-gauge leakdown tester measures the condition of your head gaskets, piston rings, & valves. A must to test your internals before going forced induction or nitrous! The left gauge records incoming air pressure, & the right gauge records individual cylinder pressure- & the difference is your leakdown.

P7566839 **\$73.99**

DIAL INDICATOR

Universal Dial Indicator, graduation: 0.001". Can be used on a cam checking tool, a magnetic dial indicator base, or a deck bridge, for finding top dead center & other measurements.

Race Gas
Race Fuel Concentrate

RACE FUEL CONCENTRATE

A potent & powerful molecular blend creates this Race Fuel concentrate. The highest quality MMT is used for the upmost in true octane results. Take your ordinary pump gasoline and transform it into high octane, high energy, track grade racing fuel. Unleaded formula is safe for all sensors. For all motorsports requiring the highest horsepower producing fuel concentrate.

16 OZ. **\$17.99**

32 OZ. **\$29.99**

3 PACK OF 32 OZ. **\$89.99**

ACCELERATOR RACE FUEL CONCENTRATE

Accelerator is a blend of components which will transform the make up of premium unleaded pump gas to closely resemble race fuel. Will first, & foremost, raise the octane of your fuel as high as 105. Won't harm sensitive O2 sensors or catalytic converters. You can customize your blend to fit your needs. Lowers the end burn temperature which will make your fuel burn more complete, thus releasing all of the power that your engine has to offer.

8 OZ. TRF44245 **\$12.99**

32 OZ. TRF16410 **\$25.99**

MAX-TANE DIESEL FUEL INJECTION

CLEANER & CETANE BOOSTER

Increases cetane number by 8. Cleans deposits from fuel injectors, combustion chambers, intake valves. Increases fuel economy by up to 10%. Improves engine startup & reliability. Provides lubricity to entire fuel system.

R4311755 **\$17.99**

SI-1 COMPLETE FUEL SYSTEM CLEANER

Cleans injectors, carburetors, valve & combustion chamber deposits with a concentrated blend of the most powerful high-temp & low-temp detergents available. Cleans to nearly 100% efficiency in only one treatment! Contains synthetic upper cylinder lubricant. Safe for continual use.

R3160103 **\$12.99**

STOP RUST PERMANENTLY - PAINTS, ENAMELS, PREP & REPAIR

TOP COAT OVER POR-15

Non-porous and will not crack, chip, or peel.

Available in Gloss Black, Semi-Gloss Black, Silver, & White.

1PT, 1QT, & 14 OZ

Aerosol Cans

Starting at \$23.99

POR 15 RUST PREVENTIVE PAINT

High-tech, high performance rust-preventive coating Available in Gloss Black, Semi-Gloss Black, Gray, & Silver. 4OZ, 1PT, 1QT & 1 GALLON

Sizes Starting at \$9.99

POR 15 SUPER STARTER KITS

Kit includes a 4 oz. can of Por-15 (enough to cover 6 square feet with 2 coats), a half-pint of Prep Ready, two wooden handle paint brushes, a pair of special high-dexterity surgical latex gloves, & an 8-ounce bottle of Marine Clean.

POR45009 \$22.99

HIGH-TEMP HEADER PAINT

POR-15 High Temp Paint is capable of withstanding extreme temperatures up to 1200°F and will resist cracking, chipping, and peeling. It is also extremely weather, salt and moisture resistant.

POR44318 \$25.99

ENGINE ENAMELS

Enamels are available in incredibly rich colors that flow easily, cover better than any other paint, & last longer. Ask about Make/Model specific colors!

\$26.99 per Pint

BRAKE CALIPER PAINT KITS

Kit includes 1 Qt. of caliper cleaner, 8 oz. caliper prep, 4 Oz. Rust preventive Paint, 1 Roll of masking tape, 2 pairs of gloves, 2 foam brushes. Detailed Instructions Included.
